IAM Members at OpenSkies Ratify Contract

Sisters and Brothers,

With the majority of members voting, IAM members at OpenSkies have overwhelmingly ratified the recent tentative agreement covering US based cabin crew members at the carrier.

This collective bargaining agreement will provide pay increases, reward the seniority of everyone at the Company and secure top of the industry health care rates for years to come.

We would like to thank our members at OpenSkies for their patience, support and solidarity during these negotiations.

In Solidarity,

Sara Gonzales

Sara Gonzales
