OPENSKIES ORY HOTEL UPDATE

Sisters and Brothers:

Many concerns have been voiced over the ongoing construction at the ORY crew hotel and the significant impact it has had on your ability to get proper rest. Your rest is a safety issue that we take very seriously. We have contacted the Company on your behalf and I know several individual cabin crew members have also contacted the Company on their own.

The Company has stated that they've been in contact with API (who is charge of their hotel arrangements) and will be updating us as soon as possible. In the meantime, please keep details of any rest issues you have at the hotel including the date, room location/number, times of the noise and time of your layover and send them to me at sgonzales@iamDL142.org.

In Solidarity,

Sara Gonzales
