

IAM District 142 Convention 2025 Las Vegas, Nevada

Safety Committee Report

3/19/25 16:30hrs

We shared our backgrounds in our breakout session and in that spirit I am presenting this report.

Our committee is a reflection of our district's membership with differing backgrounds, job titles, locals, and companies but with one spirit, one heart, one District and one union, strong and with solidarity. IAM strong, WE are strong.

The committee makes the following recommendations:

1. Standardization of safety language recommendations across the district to

The committee

Met over two days in the
Sunset II room in the
Planet Hollywood
convention center
3/18/25 and 3/19/25

From 15:00 to 17:00.

the Negotiations committees for 1st contracts and re-negotiations.

2. Adoptions of standard safety committees across the District.
3. A District Safety training program update and process.
4. Area Specific safety training given by both the District and Company.
5. Company trained First Aid/CPR training with recertification.
6. A push for in person Training relying less on CBTs.
7. An initiative to update existing CBTs where no in-person training is possible.
8. OJT (on the job training) with requirements for retaining and giving access to training records.
9. Simplifying communication to make them easier to understand for multiple work groups.
10. Multiple solutions to the many situations when working alone.
11. To require workplace first aid kits to contain Narcan.

We expect these recommendations to be addressed no later than the next District Convention.

Thanks go out to the International Transportation Dept and the delegates of the IAM District Lodge 142 Convention.

Our Committee Chair was Wenona Tyree and our Recording Secretary was Velma Thomas. We thank our facilitator General Chair - Jeff (The Killer Bee) James.
